

2019 Payment Options

Current Balance

You are able to see your current balance at any time by setting up an account with PayLease (see below). **Please keep in mind that the current charges do NOT show up on your account until the due date.** This may create confusion should you visit the site before the due date to check or pay your invoice.

Making Payments through our Website

Please keep in mind that the current charges do NOT show up on your account until the due date. This means that the balance that you may see BEFORE the due date will NOT show the current charges until the due date. We recommend paying the amount on the invoice and when the charges hit your account, they will be applied.

We use a third-party provider (PayLease) for processing dues payments. They offer payment options of PayPal, Credit Card, E-Check and ACH. There is a **fee** charged by PayLease for these payment options. In order to pay through PayLease, you will need to setup an account with PayLease by visiting www.MainStreetManagementllc.com and clicking on Pay HOA Dues Online. You will need your account number to register as a new user and it is located on your invoice.

Payment by check

To ensure proper crediting of your account, please be sure to enclose the bottom part of your invoice with your payment and write your Account Number in the memo line of your check. Please mail payment to the address on the bottom of your invoice.

Automated payments from your bank (E-Payment)

If you want to make payments directly through your financial institution, please amend the address to match the PO Box on the coupon and note your Account Number in the memo field. Your account number is located on your invoice.
